

15 JUN 1978

MEMORANDUM FOR: Chairman, DCI Security Committee

FROM:

[redacted]
Executive Secretary
DCI Security Committee

SUBJECT: Personnel Security Working Group Actions
Community Adjudication Standards

1. The Personnel Security Working Group is moving forward. [redacted] is collecting standards used by each agency in making SCI access determinations toward a goal of standardization. He has asked [redacted] for a copy of CIA's. The military have already provided their's. [redacted] informs that we do not have any written down and suspects there will be some difficulty in getting our practices formally committed on paper. He asked me for support in bringing this matter to your attention under your role as Chairman, Security Committee to see if you can assist in obtaining CIA's expeditious cooperation.

2. In a related matter but one bearing significantly on this area, [redacted] is solidifying his position as the SA/DCI/CI. He has reviewed various Executive Orders and DCID's related to CI matters. He noted and subsequently pointed out to the DCI that CI definitions consistently exclude personnel security, communications security and aspects of protection of classified material. The DCI reportedly observed that these issues were all inter-related and were parts of the same issue. The DCI encouraged [redacted] to look into these from the CI viewpoint. [redacted] intends doing so and plans to start with inquiries into personnel security, the inconsistencies and similarities, in the community's agencies. To help him with this and follow-on tasking he will be assigned the services of [redacted] currently with the Office of Policy Evaluation and Improvement (OPEI), IC Staff, and [redacted]

3. [redacted] informed me of this on 14 June and requested me to provide, or arrange for, a briefing for next week on personnel security standards and practices. I informed him that the Security Committee was presently addressing these issues and that something could be set up to cover what is now going on.
